Gyptone Xtensiv is a new range from Gyproc with new format and edge combinations. Gyptone Xtensiv is available in 3 patterns and Base (non-perforated). The tiles are available in several format options and are fully demountable.

Gyptone Xtensiv are produced with ActivAir, a patented technology, which actively degrades VOC emissions, such as formaldehyde, into non-harmful inert compounds.

Gyptone acoustic ceilings contribute to aesthetics, good acoustic and improves indoor air quality in buildings. Gyptone acoustic ceilings have durable and low maintenance surfaces with long lifespan and minimal maintenance costs. Gyptone acoustic ceilings are made from natural materials and contain no harmful substances.
**Design and technical data**

**Product description**
Gyptone Xtenisiv Base 33 is based on a specialized gypsum board.

**VOC reducing properties**
Gyptone Activ’Air is designed to decompose VOC emissions from emitting building materials, paint, furniture, carpets etc. The patented technology decomposes VOC’s, like formaldehyde, into non harmful inert compounds. Activ’Air can reduce formaldehyde concentrations in a given room with up to 70 %.

**Installation**
Gyptone Xtenisiv should be installed in Cross Lock Unipro 24 mm grid system, see Gyptone Xtenisiv installation manual for further details.

**Construction height**
Min. standard construction height is 180 mm excl. the gypsum tile.

**Fire**
A2, s1, d0.

**Edges**
Gyptone Xtenisiv is produced with edge E lengthwise and edge B on the short side. This creates visible rails longitudinal.

**Gloss and light reflection**
Gloss value 5-9 according to ISO 2813. Light reflection approx. 70 % with standard paint finish.

**Dimensional stability**
Gyptone Xtenisiv should be installed and used in areas with a relative humidity not exceeding 70 % for prolonged periods or temperature exceeding 45° C.

**Dimensions**
Standard range: 300 x 1200 mm, 300 x 2400 mm

**Surface**
Gyptone Xtenisiv are delivered prepainted. The paint colour used is white (NCS 0500).

**Weight**
Approx. 8 kg/m²

**Cleaning**
Gyptone Xtenisiv can be cleaned with a damp cloth with a mild cleaning agent.
